Summary

Highly motivated and skilled hands-on experience in implementing and managing DevOps practices. A proactive problem solver and an excellent communicator, I thrive in fast-paced environments and possess a passion for learning and implementing.

Skills

Core Java · C / C++ · LINUX Commands · HTML / CSS · SQL/MySQL · Jenkins · Spring Boot · Swagger ·
Postman API · GIT / GITHUB · Soap UI

Experience

Tata Consultancy Services

Graduate Engineer

04/2021 - 02/2022

- 9 and 1/2 months of experience in TCS.
- Worked as a backend developer in a domain of Microservices and developments of APIs.
- Developed and maintained APIs using microservices architecture using industry best practices.
- Implemented RESTful APIs for seamless communication between microservices.
- Participated in agile development methodologies, ensuring timely delivery of features.
- Actively contributed to the team's knowledge base through documentation and sharing best practices.

Projects

CELCOM(Malaysia 2nd largest Telecom Company)

05/2021 - 02/2022

Backend Developer, Celcom Project, TCS (May 2021 - Feb 2022)

- Played a key role in the development of microservices for the Celcom project, a telecommunications service provider.
- Unit Testing of APIs.
- Support work during production.
- DevOps practices.

Job Portal(Graduation Final Year Project)

11/2020

- I used PHP for the backend and HTML, CSS, and Bootstrap for the frontend, with MySQL as the database.
- Developed a comprehensive job portal as a graduation project, showcasing strong technical and problem-solving skills.
- Created user-friendly interfaces for job seekers to search and apply for jobs, and for employers to post job openings.

Hostel Management System(Masters I st year Mini Project)

<https://github.com/Arunabh97/Hostel-Management-System.git>

06/2023

- The Hostel Management System is a comprehensive mini project that I developed using PHP, HTML, CSS, Bootstrap, and MySQL. This project aims to streamline and automate various hostel management tasks, making it easier for administrators and residents to manage day-to-day operations.
