Passed 2016

Jamshedpur, Jharkhand

EXPERIENCE

IT Developer

Jan 2024 – April 2024

Internship - Full Stack Web Developer

- During my internship, I had the opportunity to work on the development of Coffee Blend, a sophisticated web application designed to revolutionize the coffee ordering process and streamline table reservations.
- Leveraging HTML, CSS, Bootstrap, jQuery, JavaScript, PHP, MySQL. I contributed to building a user-friendly interface with seamless integration of payment gateways, ensuring a hassle-free experience for customers.

Tata Consultancy Services

April 2021 – Feb 2022

Graduate Trainee - Backend Developer

- Worked as a backend developer in a domain of Microservices and developments of APIs.
- Developed and maintained APIs using microservices architecture using industry best practices.
- Implemented RESTful APIs for seamless communication between microservices.
- Participated in agile development methodologies, ensuring timely delivery of features.
- Actively contributed to the team's knowledge base through documentation and sharing best practices.

PROJECTS

Celcom-Malaysia 2nd largest Telecom Company | SpringBoot, Microservices

2021 - 2022

- Key role in the development of microservices for the Celcom project, a telecommunications service provider.
- Unit Testing of APIs - Implemented comprehensive unit tests for APIs to ensure functionality and reliability.
- Support work-Provided ongoing support during production phases to address any issues or bugs encountered.
- DevOps practices - DevOps practices to streamline development, deployment, and operations processes.

My Portfolio Website (Arunabh Das) [🔗](#) | Html, Css, Javascript

Jan 2024

- Technologies Used: HTML, CSS, JavaScript.
 - Interactive, user-friendly design; project showcase with detailed descriptions; contact form for easy communication.
- [GitHub](#)

Coffee Blend - Masters Major Project | Html, Css, Bootstrap, PHP, MySQL

Jan 2024 - April 2024

- A dynamic coffee ordering and reservation system, leveraging HTML, CSS, Bootstrap, JavaScript, PHP, and MySQL. Designed an intuitive user interface, managed server-side functionality, and collaborated to ensure project completion within set timelines, delivering a seamless and efficient experience for users.
